**Coming Soon...
to a Sewer Near You**

Notice of Manhole Condition Assessment Work

The City of Atlanta will soon begin inspecting manholes in your area as part of the **Sewer System Evaluation Survey (SSES)**. This is one of the first steps in Atlanta's massive sewer repair program.

Manholes are inspected to assess the overall condition of the structures and to identify and locate possible defects, such as cracks and broken seals, which can contribute to excess water entering the sewer system from rain and other water sources.

***We will be working in your
neighborhood for the next ___ days.***
